Healthcare Solutions

MCC™ Premium Label Solutions

- Blank labels
- Barcodes, sequential numbering
- Dispensary labels
- Cryogenic and laboratory labels

- Patient ID print solutions
- Efficient patient ID scanning solutions
- Connecting, collaborating and communication Solutions
- Mobile computers and tablets

Healthcare

Our holistic approach to Healthcare

Providing Healthcare specific thermal printer, scanners, wristbrands and wristband printer solutions, as well as producing blank labels for thermal printers, cryogenic, laboratory, patholoty and 3-part pharmacy dispensary labels.

We offer specialised label materials which are specifically designed for the Healthcare Sector. High performing materials for small diameter medical services through to materials and adhesives which can withstand extreme low cryogenic temperatures and steam autoclave sterilisation.

Digital labelling solutions provides flexibility and bespoke labels for printing on demand, as well as the ability to sequentially number labels and print 1D/2D barcodes.

Our in-house Bureau has a fleet of dedicated Zebra thermal printers which overprint pre-printed labels – providing a pain-free overprinting solution too. **Contact us for more information.**

Healthcare

- ET40-HC Tablet

Zebra ET40-HC Tablet: Everything you need for telehealth

While consumer-grade tablets may seem cost-effective, a lack of healthcare features adds cost and safety concerns. Introducing the ideal replacement, the rugged ET40-HC Series — with all the enterprise healthcare features you need, all at the right price.

Features
- Designed for constant disinfecting
- Rugged and ready to work
- Healthcare alert button for rapid response
- World-class scanning
- Large 10 inch display
- Can be used as a walkie-talkie or PBX handset
