ZEBRA

- Industrial Ultra Rugged
- 2D decoding

TRANSPORTATION & LOGISTICS MANUFACTURING

Zebra Industrial Ultra Rugged Scanners

Unstoppable performance in the toughest environments, this range of scanners allow for additional functionality with two dimensional (2D) and one dimensional (1D) barcode scanning. There's no need to take time to align the barcode or pause between scans giving true point-and-shoot first time scanning simplicity.

Features
- 1D and 2D Scanning
- Scans mobile phone and computer screens
- Range of near contact to 38.6cm for 100% UPC barcodes (SR)
- Range of near contact to 19.3cm for 100% UPC barcodes (HD)
- Rugged option designed to withstand repeated 2m drops to concrete
